Popular Keynotes & Workshops

“GOD, IT’S NOT WORKING!”®

What causes us to lose track of the most important process that makes everything we attempt become a reality?

Your clients have read, studied, learned, and practiced ancient Universal laws and principles, and are left saying, "God, it's not working!" Why?

Vincent will give your guests:

- The one KEY process that makes everything they attempt in their lives work
- The skills to identify and disempower two newly distinguished parts of the mind that get in the way of their sacred gifts
- Necessary tools and confidence to reconnect with the higher self, and kick start their journey to fulfill their passions!

This participatory workshop will transform their lives forever!

STOP STOPPING YOURSELF AND BECOME UNSTOPPABLE!

People don’t believe what they think they believe!

This is one of Vincent’s most compelling and powerful workshops about becoming unstoppable in life. Your clients may have the knowledge and information to use the Law of Attraction and other spiritual and metaphysical principles, but there are specific psychological anomalies that they must become aware of in order to put ANY spiritual principles into working practice!

Vincent compassionately and expertly will teach your guests:

- How to identify those destructive mechanisms and processes that have created blockages
- To effectively use mindfulness to bring to awareness their unconscious blockages
- How to transform and release the resistances, illusions, sabotages, and self-created BS
- The means to wake up and unlock their purpose, passion, and brilliance and become unstoppable!

They will become the master of their lives, change all they want, manifest complete abundance, and fulfill all their dreams!

GOD AND YOUR EGO ARE ONE

The most misunderstood part of our human psyche is the ego!

Not only are there contradictory definitions and understandings in the field of Psychology about the ego, there are even various interpretations amongst today's spiritual and metaphysical teachings. All this confusion about your MOST important trait gets in the way of your magnificence and Divine gifts!

Vincent will empower your guests to:

- Finally put an end to all their confusion about what to do with their egos
- Examine credible evidence that proves their egos are vital to their existence as spiritual beings
- Recognize the true culprit keeping us from experiencing their Divinity and true essence
- Understand that by embracing and nurturing their egos, their reconnection with the Spirit is guaranteed

ALL YOU NEED IS LOVE-ATTRACTING & MAINTAINING PERFECT RELATIONSHIPS!

Unconditional Love and Relationships—The two most essential, inherent, natural, and soul-feeding aspects of life.

So, WHY are most people not in fulfilling or healthy relationships, many of their relationships strained and dysfunctional, and many marriages ending in divorce? More importantly, why is unconditional love—our most abundant natural resource—the most deprived experience in the world today?

Relationship expert Vincent will illustrate to your clients how to:

- Dispel all the myths about love and relationships
- Attracting healthy relationships has NOTHING to do with other people
- Navigate through their youth experiences caused all the patterns and outcomes of adult relationships and love
- Their outer world experiences with relationships directly mirrors true inner world self-relationship
- Become free from all those patterns and attract and sustain ALL the loving relationships they are innately and divinely entitled to and deserve!

AWAKEN THE PSYCHIC AND MEDIUM WITHIN!

EVERYONE is Psychic! It was a Divinely endowed gift upon our creation

Experts theorize that we are all connected to the “Collective Unconscious,” the “Akashic Records,” the Mind of God, or whatever you choose to call it, where ALL information about all life resides. Vincent’s highly skilled and affective teaching techniques will open up your clients’ innate abilities. Whether they have no experience at all, have only dabbled in the fields, or are already a proficient Psychic or Medium, this course will serve all the participants’ needs.

Vincent pushes participants beyond the limitations they set for themselves, going beyond the boundaries of their minds to reach out to the power of Spirit and experience themselves the way they have never experienced themselves before.

PAST LIFE REGRESSION FOR PRESENT LIFE UNDERSTANDING

The soul memories of our past lives helped form the unique and wonderful beings we are in the present.

Vincent begins by describing the important features of reincarnation and how previous lives may be working in your clients’ current life journeys—for its good or to its detriment.

Then, in the primary feature of the program, Vincent will lead your clients through a guided reverie and regression exercise designed to take them on their own journey to a previous lifetime—one that may hold an answer to an issue they’re experiencing in this lifetime. While in a hypnotic-like, highly relaxed state, Vincent guides them in what to envision, and their souls will take them to a life it wants them to see.

BECOME A DR. DOLITTLE AND LEARN TO TALK WITH THE ANIMALS!

We CAN talk with the animals! Everyone can!

Vincent uses his unique teaching style to instill awareness and intonement and during this workshop, your clients WILL:

- Learn how to communicate with their pets, and other animals, as well
- AND most important, they will learn to use the insight they gain from their pets to help heal themselves and others!

This will be one of the most exciting and fun workshops your clients have attended whether they have any psychic or animal communication experience or not. They will assuredly gain a greater understanding of themselves!
